DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Andreiko et al. (US 5,368,478). Andreiko teaches in Figs. 1-3A, a scanner that can include an ultrasonic scanner (33) for imaging the jaw and then digitizing the image and displaying the digitized image in a display (see cols. 15-18). The specific limitations of the other claimed structures and steps are inherently met by the disclosure of Andreiko (see col. 3, line 52 - col. 7, line 7).
